16:18 <Sabu> not sure if you seen this yet:
http://p.acket.org/_research/qatar_petroleum.tar.gz thats my personal research
16:18 <Sabu> I'm starting to upload more of my recent research to that server as
it will be useful to revolusec
16:22 <Sabu> let me know when youre done checking it

23:04 <Sabu> we would love to penetrate their users/network for #antiseC
definitely get me details so I can begin working ;)
23:05 <hyrriiya> :p
23:05 <hyrriiya> the network is on hold right now
23:05 <hyrriiya> soon as i extract what i need
23:05 <hyrriiya> i give it to you
23:06 <hyrriiya> but i'd advise to pwn them and sniff for a few months
23:06 <hyrriiya> my own countries secret services use their services :P
23:06 <hyrriiya> cnn uses them
23:06 <hyrriiya> etc
23:06 <hyrriiya> the economist lol
23:06 <hyrriiya> uses them :D
23:07 <Sabu> yup
23:07 <Sabu> thats what we plan on doing
23:07 <Sabu> look what we did with our release
23:07 <Sabu> we owned that cops.org shit and got their entire LE mail archives
23:07 <Sabu> it was great

14:29 <hyrriiya> lol fuckkk
14:29 <hyrriiya> :D
14:29 <Sabu> indeed
14:30 <hyrriiya> if ur friend can make good monies from the banks, u can rent private jet and go anywhere in the world ;)
14:30 <Sabu> yeah im flying my ass to your boat and we'll hack around the 7 seas lolol
14:32 <hyrriiya> ehehehehehe :D
14:32 <hyrriiya> im hoping to make at least 1M EUR this year
14:32 <hyrriiya> if i get that, i'll quit my job and hax 24/7 ;)
14:33 <Sabu> well if you quit dont forget to send 0days over here so we can continue ;)
14:33 <Sabu> if I knew I could make tht much money I woulda been hacking for money
14:33 <Sabu> and not politics ;)
14:35 <hyrriiya> ;p
14:35 <hyrriiya> its possible
14:35 <hyrriiya> cause the banks i have
14:35 <hyrriiya> i have access to the SWIFT gateway
14:35 <hyrriiya> so we can do MT20x transfers
14:36 <hyrriiya> if ur friend has a bank willing to receive the funds
14:36 <hyrriiya> we can steal funds from alot of other banks
14:36 <hyrriiya> but to do MT202 transfers, it's between banks only
14:36 <Sabu> yeah
14:36 <hyrriiya> so his bank needs to be "corrupt"
14:36 <hyrriiya> to get the cash and pay us :D
14:36 <hyrriiya> but i think its quite possible
14:36 <Sabu> yeah it is
14:37 <Sabu> because he wanted me to own banks but I was so blinded by hate for governemnts I ignored him an did other shit.. but I know he has access to two banks in the carribean at least
14:37 <Sabu> one of them has a lot of money.. bank popular in puerto rico
14:37 <Sabu> banco popular+
14:37 <hyrriiya> ehehe cool
14:37 <hyrriiya> i got banks in africa
14:37 <hyrriiya> lebanon
14:37 <hyrriiya> syria :)
14:38 <hyrriiya> i've seen transfers between them
14:38 <hyrriiya> of 5M EUR
14:38 <hyrriiya> of 10M EUR
14:38 <hyrriiya> so imagine if we can get 5 million
14:38 <hyrriiya> fuck its alot :D
14:38 <hyrriiya> i'd be happy with 1M or half million for myself :D
14:38 <Sabu> hell yea
14:38 <hyrriiya> lets hope ur friend can make it happen :D
14:40 <Sabu> if he can't I'll break his legs haha
14:40 <Sabu> any cool hacks lately or you been busy working?

14:48 <hyrriiya> no stratfor-style stuff yet :p
14:48 <hyrriiya> that's why im looking to make some monies
14:48 <hyrriiya> if i can even 100k
14:49 <hyrriiya> then i'll have time for hardcore stuff
14:49 <hyrriiya> i got a few 0day
14:49 <hyrriiya> that will be good for spearphishing
14:49 <hyrriiya> people visit link, meterpreter runs :D

22:37 <hyrriiya> and made a crazy query first
22:37 <hyrriiya> and the fucking website stoped responding
22:38 <hyrriiya> my hart skiped a beat :D
22:38 <hyrriiya> i killed the mysql client and it got back on
22:38 <hyrriiya> lol
22:38 <hyrriiya> they were clueless apparently
22:39 <Sabu> haha

15:45 <hyrriiya> ip dhcp snooping database
15:45 <hyrriiya> :p
15:45 <hyrriiya> i got the isp :p
15:45 <hyrriiya> maybe moar stuff will come by
15:46 <Sabu> ;pp
15:46 <Sabu> ok
15:46 <Sabu> so they snooping ips?
15:50 <hyrriiya> nop its like their client dhcp lease database :)
15:50 <hyrriiya> snooping is a thing dhcp has to do to be secure in cisco
15:50 <hyrriiya> but i can basicly affect all of the isp :)
15:51 <hyrriiya> i can prolly kill internet on this isp
15:51 <hyrriiya> gonna try and pwn the others :D
15:52 <Sabu> jea
15:52 <Sabu> sounds good brother

```

hyrriiya.log

14:24 <hyrriiya> dunno
 14:24 <hyrriiya> only heard of it after the event
 14:24 <hyrriiya> would love to have it too
 14:24 <Sabu> jEA
 14:24 <hyrriiya> 24 million clients is alot :D
 14:24 <Sabu> yup

 14:32 <hyrriiya> btw u have an idea of what ur bank guy is capable of ?
 14:32 <hyrriiya> i'm pilling up banks
 14:32 <hyrriiya> i wonder if i could make a million or two EUR :D
 14:37 <Sabu> hes not responding through my boy so I'm on standby but hes pulled
 at least a million from caribbean banks
 14:37 <Sabu> he lives like a fucking king
 14:37 <hyrriiya> cool :D
 14:37 <hyrriiya> that's good
 14:38 <Sabu> so whats new brother? everything coo?
 14:38 <Sabu> win 67
 14:39 <hyrriiya> yep :)
 14:39 <hyrriiya> mass pwning to find boxes for ur DB friend
 14:40 <hyrriiya> hoping to make around 10k USD
 14:40 <hyrriiya> for xacker,
 14:40 <hyrriiya> he needs to flea syria ASAP
 14:40 <hyrriiya> major also
 14:40 <hyrriiya> but major i can do with less money cause he has working passport
 14:41 <Sabu> yeah man get dbs. make money. and help these guys
 14:41 <Sabu> where can they go ?
 14:42 <hyrriiya> i can get major into spain
 14:42 <hyrriiya> and get him refugee status
 14:42 <hyrriiya> xaker is harder cause he lost his passport
 14:42 <hyrriiya> and military want him to do military service
 14:43 <hyrriiya> he said that with about 10k he could skip it
 14:43 <hyrriiya> im gonna chat with him and see if he's up for stealing from
 syrian banks .P
 14:43 <hyrriiya> if he goes to a bank and is able to get 10 or 20k USD
 14:43 <hyrriiya> i can transfer funds to his account
 14:43 <hyrriiya> and he can leave before getting caught
 14:43 <hyrriiya> i hope :D
 14:43 <hyrriiya> i think only in july the military want him
 14:44 <hyrriiya> so until there i gotta come up with a way of helping him
 14:45 <Sabu> hope so
 14:45 <Sabu> getting me out of here will probably be harder. only way is private
 jet and fake docs
 14:46 <Sabu> its funny. all the protections on u.s. borders is not to keep
 illegal immigrants out. its to keep u.s. citizens IN
 14:46 <hyrriiya> ;) ofc
 14:46 <hyrriiya> like vanunu in israel
 14:46 <hyrriiya> well, if ur bank guy can manage it
 14:47 <hyrriiya> we'll make good money
 14:47 <hyrriiya> and private jet is then doable
 14:47 <hyrriiya> it's not so expensive
 14:47 <hyrriiya> u just need to get to mexico
 14:48 <hyrriiya> lol i just pwned www.privejets.com
 14:48 <hyrriiya> :D
 14:48 <hyrriiya> shame i cant get u pwned private jet tickets lol
 14:49 <hyrriiya> http://www.privejets.com/jet_setter_program/gold_card.php crazy
 14:49 <hyrriiya> 100k
 14:49 <hyrriiya> but u get everything
 14:49 <hyrriiya> choppers, jets, the works lol
 14:51 <hyrriiya> [REDACTED] if u
 want access lol
 14:52 <hyrriiya> in ur case, i'd worry about rendition also
 14:52 <hyrriiya> try and keep ur name + face hidden
 14:52 <hyrriiya> cause USA has tentacles everywhere in the world
 14:52 <hyrriiya> if they know ur face, u can get pwnt :(
 14:55 <Sabu> haha
 14:55 <Sabu> nice!

hyrriiya.log

14:55 <Sabu> yeah
14:55 <Sabu> own anything cool so far? I'm sure something cool hs come up
14:55 <Sabu> plesk-scanner + scan alexa's top 1000 site ranges
14:55 <Sabu> win
14:56 <Sabu> win 4
14:56 <hyrriiya> :p
14:56 <hyrriiya> yeah i gotta export alexa list
14:56 <hyrriiya> u know if u can get a list of all alexa stuff ?
14:57 <hyrriiya> i dont have patience to copy pasta :D
14:58 <hyrriiya> im currently mass backdooring whole hosting providers
14:58 <hyrriiya> then i wrote a script that with 1 request lists all domains in plesk :D
14:58 <hyrriiya> and i'm gonna feed it to ur db friend
14:58 <hyrriiya> for him to tell me which ones he wants
14:58 <Sabu> sounds good
14:59 <Sabu> yeah we need hosts for vps boxes too
15:00 <hyrriiya> yeah i thought about making a private tor for us
15:00 <Sabu> do eet
15:00 <hyrriiya> or like make exit nodes for tor
15:00 <hyrriiya> and we can specify it on our tor config :)
15:01 <hyrriiya> yeah, once i get to the 50k boxes pwned :P
15:01 <hyrriiya> i currently have about 12k boxes
15:01 <hyrriiya> on about 6 diferent ISP's lol
15:03 <Sabu> lol
15:03 <Sabu> insaniy
15:03 <Sabu> insanity+
