Personal Narrative

Grew up in 78704 - yes, it really is a way of life. Went to UT plan II undergrad, where I helped run a co-op and started a bike shop (firemansbikes.com). After undergrad, did sysadmin for a funny little startup. Once the dotcoms crashed, went to law school to study copyright & software licensing. Decided I'd rather spend more of my time making software than fighting about it.

Personal Narrative

What can I say? I was born and raised in Austin, and I'm a product of this town. I enjoy going to see the live shows, attending the various festivals. I am also an avid car guy, I enjoy working on my 91 Camaro, going to drag strips and car cruises, and generally driving anywhere. I also enjoy working with technology, I maintain a local car club and build small websites as a hobby.
