[edit] Who we are and what we do

The JTB team in JTAC is the thematic assessment team for Islamist Attack Methodology. Like all of JTAC, it is staffed by secondees from various government/military departments. We have unparalleled access to all-source intelligence from the 5-eyes community and can be consulted by GCHQ staff on any CT issues related to weaponry, tactics and training.

We can also put you in contact with other relevant JTAC Thematic teams with expertise in CBRN, Critical National Infrastructure, Aviation, Finance and Facilitation, Propaganda and Ideology, etc.

We provide formal comment for Sigint EPR, or informal answers to questions requiring specialist knowledge e.g. construction of IEDs, use of coded language, kidnapping methodology.

JTAC is based in [redacted].
