

COUNTER INTELLIGENCE CORPS
MILAN DETACHMENT ZONE #3
APO 512 c/o GSI(b) 2 DISTRICT CME

18 February 1946

SUBJECT: Investigation of Unauthorized Control of the Italo-French
Frontier.

RE : Discussion with Capt. NIGRIELLI, SCI/Z, Genoa

1. See report dated 6 February 1946, same Subject.
2. In a discussion with Capt. Nigrielli, SCI/Z, Genoa, this officer determined that Nigrielli did not authorize Andrews to assume operational control of the Italo-French frontier.
3. Capt. Nigrielli suggested to Andrews that he (Andrews) assume a discretionary control of the frontier, that is, to request from the Italian frontier authorities information on people entering and leaving.
4. Andrews, however, independently assumed direct control of Ponte San Luigi and issued orders governing this control.
5. This officer believes that the situation came about from a misunderstanding rather than with an intent towards actual control.
6. This officer recommends that the affair be considered closed.
